

JOB DESCRIPTION

POSITION TITLE: Engineering Technician

DEPARTMENT: Public Works

REPORTS TO: Director of Public Works

FLSA CATEGORY: Non-Exempt

EMPLOYMENT CLASSIFICATION: Full-Time

PAY TYPE: Hourly

LATEST REVISION DATE: 4/2017

POSITION SUMMARY

The Engineering Technician reports to the Director of Public Works. The position applies intensive and diversified knowledge of engineering principles and practices in the construction, inspection and management of a wide variety of capital improvement and maintenance and construction projects. The Engineering Technician performs a full range of technical inspection work involving capital projects to ensure compliance with plans, codes, specifications and contract provisions. This position acts as a project liaison between engineers, contractors and the general public.

ESSENTIAL DUTIES AND RESPONSIBILITIES

Engineering, Inspection & Project Management

- Performs routine to complex technical engineering inspections of public infrastructure and capital improvement projects.
- Performs engineering calculations, prepares sketches and designs from instructions and design data, interprets and confers survey notes to various types of drawings, develops and modifies/maintains computer programs required to provide graphics, maps and engineering drawings.
- Inspects projects performed under contract for compliance with plans and specifications.
- Reviews and recommends progress payments and assists in the preparation of change orders (as requested).
- Observes, tests and reports on construction materials; verifies quantities; notifies contractors if unsafe conditions are being observed at construction sites; report work not in accordance with specifications and recommends work stoppage for non-compliance; consults with the Village Engineer on major deviations from specifications.
- Prepares written reports of inspections and construction change orders; composes correspondence including violation letters.
- Ensures effective corrective measures by utilizing individual judgment in interpreting legal requirements and standards of methods, materials and workmanship.
- Maintains field records, including sketches, photographs, drafting and narrative notes; prepares written reports of inspections.
- Utilizes a variety of tools and equipment, including measuring rods, tapes, surveying transits, calculators,

GPS data collector and other tools to determine distance, location, dimension, depth grade and to calculate volumes.

- Updates the Village GIS with infrastructure construction data.
- Using locator and record drawings, accurately locates and marks electrical, fiber optic, water, sanitary, and storm sewer mains and laterals as needed. Verifies accuracy of field data and coordinates as necessary with maintaining Village GIS mapping and data.
- Performs duties as assigned in the management and operation of the Village compost site including, but not limited to, required reporting and permitting.
- Meets and confers with contractors, public agencies and the general public; responds to inquiries and investigates complaints from the public concerning public infrastructure and capital improvement projects, codes and standards.
- Assists with the preparation of construction estimates, bid specifications and other related materials.
- Follows all state laws, local regulations and work rules pertaining to job safety. Reports any near misses and violations of safety laws, regulations and rules to their supervisor.
- Keep informed of current trends and technology in areas of responsibility and apply to assigned functional area of responsibility.
- Completes State of Wisconsin PASER street condition report as requested.
- Assist in the preparation of annual mileage map and report as requested.
- Performs related duties as assigned.

ESSENTIAL KNOWLEDGE, SKILLS AND ABILITIES

- Knowledge of engineering and construction principles and practices as applied to the design, construction and maintenance of public infrastructure facilities.
- Knowledge of mathematical engineering applications, land and surveying methods and general public infrastructure operations.
- Ability to manage multiple work assignments, prioritize, and complete all assignments accurately and in a timely manner.
- Ability to take direction, facilitate communication, resolves problems, work individually and as part of a team, receive and give constructive criticism.
- Ability to make sound decisions and exercise good judgment in the absence of supervision.
- Ability to add, subtract, multiply, divide, calculate decimals and percentages, and makes use of the principles of descriptive statistics.
- Ability to comprehend and interpret policy and procedure manuals, work rules, safety procedures, construction plans, GIS mapping and record drawings.
- Knowledge of computer design software such as but not limited to XPSWMM, WinSLANM, AutoCAD, HydroCAD and GIS based software programs such as ESRI.
- Ability to record and deliver information, explain procedures and follow directions and instructions accurately and in a timely manner.
- Ability to communicate effectively and courteously with the general public, elected officials, administration, supervisors, other Village employees, construction contractors, and others.
- General proficiency with basic Microsoft Office products including Outlook, Excel and Word.

Additional Desired Knowledge, Skills and Abilities

- Ability to operate a variety of tools and equipment including; dump truck and plow, backhoe, loader, sewer cleaning equipment, street sweeper, brush chipper, chain saws, lawn mowers, hand tools, tractors, and various other small power tools.
- Ability to maintain equipment and vehicles assigned to operate and evaluate when such maintenance or repairs can be completed in-house or requires outside services.

REQUIRED EXPERIENCE, EDUCATION AND TRAINING

- High School Diploma or equivalent.
- Five years of progressively responsible experience in engineering practices and/or public works inspection.
- Must possess a valid Wisconsin driver's license.
- Position may require occasional overtime work and carrying a pager on a rotating schedule for on-call assignments.
- Must attend Village safety training sessions required for position and meet and associated testing requirements.

Additional Desired Training/Licenses

- Associate degree in civil engineering, civil tech, surveying or closely related field.
- Directly related public works laborer work experience.
- Valid Wisconsin Commercial Driver's License (CDL) Class B minimum, or ability to obtain a CDL within three (3) months of employment and direct experience with snow removal operations.
 - If applicable: Must pass a post-employment offer drug screen and physical along with periodic testing required for the maintenance of CDL License.
- Wastewater Operator Certification from Wisconsin Department of Natural Resources (Class/Grade depending upon position duties assigned)

PHYSICAL DEMANDS

- This position is performed in both indoor and outdoor settings, possibly in adverse weather conditions along with the ability to sit, stand and walk and do repetitious tasks for an extended period of time.
- Requires the ability to frequently lift loads of up to eighty pounds.
- Requires the ability to climb and descend a ladder.
- Requires the ability to operate/use hand tools, power tools, motorized vehicles and equipment.
- Requires the ability to effectively communicate verbally with citizens and other staff members.
- Ability to operate office equipment to include telephone, pagers, computers, printers, photocopier, and fax machine.

This job description is intended to describe the functions and minimum requirements for the performance of this job. It is not to be construed as an exhaustive statement of all duties, responsibilities or requirements. In addition, the Village reserves the right to add, change or delete functions of this position at any time. This job description supersedes all previous job descriptions for this position.
