- Assume full management responsibility for all Public Works Department services, activities, divisions and sections including administration, engineering, streets, water, sewer, storm water, sanitation, fleet/facility; recommend and administer policies and procedures.
- Continuously monitor and evaluate the efficiency and effectiveness of service delivery methods and procedures; assess and monitor work load, administrative support systems, and internal reporting relationships; identify opportunities for improvement; direct the implementation of changes.
- Be responsible and accountable for Public Works Department programs, policies, and activities; negotiate and resolve sensitive, significant and controversial issues.
- Develop plans and recommendations for future public works projects.
- Ensure compliance with applicable State and Federal rules and regulations.

Engineering

- Represent the Public Works Department and provide engineering consulting to other Village departments, elected officials, contractors and outside agencies.
- Performs or provides direct oversight of the review of site plans, engineering plans, subdivision plats for compliance with Village standards.
- Serve as the Village Engineer; coordinate and oversee any contracted Village engineering services.
- Create, review and implement agreements between parties regarding engineering, construction, development and future maintenance.

Community & Board Relations

- Resolve citizen inquiries, complaints or problems concerning activities of the Department that cannot be handled by other staff; keep the Village Administrator advised on departmental activities through oral and written reports.
- Participate on a variety of boards and commissions; attend and participate in professional group meetings; stay abreast of new trends and innovations in the field of public works.
- Prepare and present staff reports and other necessary correspondence.
- Oversee and implement Public Works communication and outreach plans.

Team Management

- Select, train, motivate, and evaluate Public Works Department personnel; provide or coordinate staff training; work with employees to manage their talent, coach/correct deficiencies; recommend discipline and termination procedures when necessary.
- Provide leadership and coordination with supervisors in the evaluation process for new developments to include working with developers to provide guidance on design requirements for public facilities or utility systems which protect the public interest.
- Plan, direct, and coordinate the Public Works Department's operating and strategic plans; meet with management staff to identify and resolve problems; assign projects and programmatic areas of responsibility; review and evaluate work methods and procedures.
- Monitor and oversee employee safety programs, procedures, training and implementation.
- Supervise Village utility billing and related issues.

General Management

- Manage the development and implementation of Public Works Department goals, objectives, policies, and priorities for each assigned service area; establish, within Village policy, appropriate service levels; allocate resources accordingly.
- Manage and participate in the development and administration of the Public Works Department budget and capital improvement plan; direct the forecast of additional funds needed for staffing, equipment, materials and supplies; direct the monitoring of and approve expenditures; direct the preparation of and implement budgetary adjustments as necessary.
- Create and evaluate bids, requests for proposals and contracts for services and equipment.
- Manage the emergency management preparedness of the department and implementation of any emergency response.
- Perform related duties and responsibilities as required and assigned.

ESSENTIAL KNOWLEDGE, SKILLS AND ABILITIES

Knowledge of

- Operational characteristics, services, and activities of a comprehensive public works program.
- Organizational and management practices as applied to the analysis and evaluation of programs, policies, and operational needs.
- Modern and complex principles and practices of program development and administration.
